

[OPEN DOCK LOCATIONS 2019

Please note before you select a Dock Location, PLEASE be aware of what is on the shoreline. At this time, no limbs/trees/steps will be removed. It is your responsibility to maintain your location. Please respond via email with the location that you are interested in. (erinpoppe@kampsdels.com) I will then respond back whether or not you are able to take over location.

All Dock Locations are marked by a fence post. Each post has a number attached either with a yellow/orange tag. The fence post marks the middle of each of the dock locations. Each Dock Location has 10 feet on both sides of the fence post. Do not remove posts!
